

enabling continuous learning for Oman Arab Bank's knowledge workers

about the customer

Established in 1984, Oman Arab Bank is a commercial bank in Oman, with 1200+ employees

challenges

disprz solution

before disprz, the customer engaged with external trainers and content providers, which was time-consuming and costly

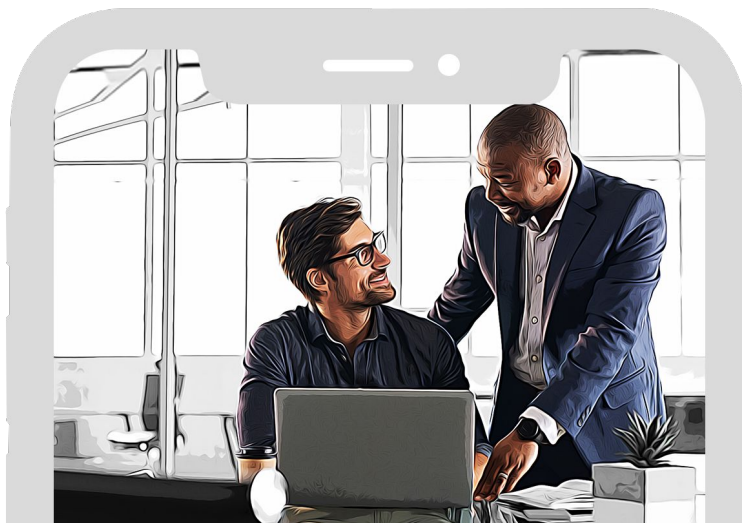

shifted entire knowledge workforce to our **online learning experience platform** in record time (45 days)

due to external dependencies, there was a lack of continuation in skilling

uninterrupted and faster knowledge dissemination through self-paced learning. Skill scores, completion analytics etc. to assess progress

need to complete mandatory compliance trainings on the platform on a regular basis

the bank can upload their own content on our platform for mandatory **compliance programs** (like anti-money laundering) for knowledge workers, with certificate automations

impact

750+

learners are active on the platform on a daily basis

30%

reduction in L&D costs by shifting to online learning

45 days

record time taken to shift from manual to e-learning in the post pandemic phase
